

RubbaFIX®

Repair your conveyor belts, wear liners, rubber lined pumps, tank linings and other rubber surfaces quickly and reliably with the RubbaFIX® MELTA® range without compromise!

Ineffective, time consuming two-part repair compounds are a thing of the past with the new RubbaFIX® MELTA® solutions. Using thermal technology, our specialised MELTA® applicators can effectively apply an easy one-part RubbaFIX® repair compound, eliminating all your repair hassles, extending your operating life and putting you back into action sooner.

The MELTA® applicators can be used to efficiently repair both small and large surfaces and are available with a range of nozzles suitable for different applications.

MELTA® Mini

This high performance heat gun is designed to efficiently apply the RubbaFIX® repair compound to small repair areas.

- 250g compartment
- Magnetic foot
- Lightweight and easy to handle

MELTA® Pro

Utilising a high flow mechanical pump, the RubbaFIX® repair compound is fed through a heated hose to the applicator gun, where it reliably repairs large areas.

- 5kg tank
- Regulated flow
- Easily transported on-site
